Questions 🔑 💬 📍 📄

1. Why do adult cats meow?

A. To scare away predators
B. To communicate with each other
C. To express dominance
D. To communicate with humans

Answer: D
Explanation: Adult cats meow primarily to communicate with humans, not with each other.
Answer location: "But domesticated cats have learned that we humans are suckers for their meows and adapted to use it to get what they want from us."

2. At what stage do cats stop meowing to communicate with each other?

A. When they are adults
B. After being domesticated
C. As soon as they are born
D. Before they are weaned

Answer: A
Explanation: Cats stop meowing to communicate with each other once they reach adulthood.
Answer location: "as adults, however, cats don't actually meow at each other to communicate."
